Low Code No Code

Large organisations with a variety of application development needs, are making Microsoft Dynamics 365 their first choice for complex, large-scale deployments.

Dynamics 365 is a high-productivity platform which helps IT teams deploy quickly and cost effectively without compromising on compliance or security. It's powerful enough to support everything from innovative customer applications to re-platforming legacy systems.

Utilising a combination of Dynamics 365, Azure, SQL Server, Power Platform and Office 365 and blending our expertise in bespoke software and system integration, our Low Code No Code solutions can be tailored to fit seamlessly and cost effectively into your business suite of intelligent applications.

We bring the best of Microsoft technology together

At TEKenable we endeavour to turn every business in to a digital business. We bring the best of Microsoft technology together, leveraging Dynamics 365 to fully integrate business critical applications.

In today's data driven world a successful business is one that can analyse information with the intelligence to anticipate and respond to customer needs in real time.

With the power of the cloud, Dynamics seamlessly unifies CRM and ERP capabilities to enable businesses to identify and capture new opportunities so all parts of your business are connected. This empowers organisations to make critical business decisions, take advantage of new trends, disrupt, adapt and re-imagine what is possible.

Dynamics 365 technology stack includes the following key functionality:

DYNAMICS 365 xRM

Applications are a combination of xRM (an application builder with designers for forms, reports, security etc), Flow, Power Platform, Azure and bespoke software.

DYNAMICS 365 TALENT

Hire and retain the best people for your organisation with an integrated solution for attracting and on-boarding, integrated with your core HR management system.

DYNAMICS 365 SALES AND CRM

Create and pack a sales funnel, find the right prospects, deepen relationships, connect to LinkedIn and sell more with actionable insights and predictive guidance.

DYNAMICS MIXED REALITY

Overlay digital content onto the real-world for greater efficiency and teamwork. Visualise room layouts with holograms and much more.

DYNAMICS 365 CUSTOMER SERVICE

Meet and exceed customer expectations across all channels, by optimising the work of field technicians, accelerating problem solving and executing projects on time and within budget.

DYNAMICS AI DRIVEN INSIGHTS

Make more informed decisions by applying AI to your data. The single integrated data repository that underpins Dynamics 365 is mined for Insights into Sales, Customers and Customer Service delivering a competitive edge.

DYNAMICS 365 MARKETING

Keep the sales pipeline fed through lead generation campaigns with automated process flows, comprehensive event management, customer segmentation and social insights.

DYNAMICS 365 FINANCE AND OPERATIONS

Connect and optimise back-office, retail and supply chain operations by integrating Finance, Manufacturing and Supply Chain management to deliver personalised shopping experiences.

TEKENABLE

built for change

TEKenable are experts in digital evolution. We're an Irish technology company delivering digital evolution by combining modern technologies with legacy systems, to help companies build real business advantage.

As market demands continuously change, we blend innovative thinking and breakthrough technologies to produce game changing results through improved cost savings, operational efficiencies and enhanced customer experience.

We have global reach with operations in Ireland, UK and UAE, and expertise across Financial Services, Healthcare, Agri-Food and the Public Sector. In 2019, we were named Technology Business of the Year.
