TEKENABLE
built for change

OUR VISION

To be the market leaders in applying the latest technology innovations to existing legacy systems ensuring our clients win in the digital era.

TEKenable are experts in digital evolution

We're an Irish technology company delivering digital evolution by combining modern technologies with legacy systems, to help companies build real business advantage.

As market demands continuously change, we blend innovative thinking and breakthrough technologies to produce game changing results through improved cost savings, operational efficiencies and enhanced customer experience.

We have global reach with operations in Ireland, UK and UAE and expertise across Financial Services, Healthcare, Agri-Food and the Public Sector. In 2019 we were named Technology Business of the Year.

Core Services

LOW CODE NO CODE

High-productivity platforms help IT teams deploy quickly and cost effectively. Utilising a combination of Dynamics 365, Azure, SQL Server and Office 365 we create rapidly deployed solutions that handle data capture, storage and reporting type applications with inbuilt functionality.

Utilising our expertise in bespoke software and system integration we can extend our Low Code No Code solutions to fit seamlessly into your business suite of intelligent applications.

DIGITAL SYSTEMS

At TEKenable we endeavour to turn every business in to a digital business. Blending the latest technology innovations with legacy systems, we help organisations accelerate their digital capabilities in order to realise real business advantage. Our core areas of expertise include:

- ▶ Technology Consulting
- ▶ Augmenting legacy systems
- ▶ Next Generation IT

CLOUD

While many companies plan for a cloud-first strategy, in reality most have transitioned only a minority of their applications to the cloud. At TEKenable we help companies overcome barriers to cloud adoption:

- ▶ Cloud Migration and Strategy
- ▶ Cloud Management
- ▶ Cloud Technology
- ▶ Cloud Optimisation

AI AND MACHINE LEARNING

At TEKenable, our team of data scientists and technologists help organisations deliver enhanced throughput, speedier time to market and more personalised offerings, leveraging our portfolio of AI services including:

- ▶ Robotic process automation
- ▶ Natural language interfaces - Voice and Messenger Bots
- ▶ Machine Learning
- ▶ Augmented workforce

CYBER SECURITY

Cyber-attacks can rapidly derail an enterprise's ability to create value.

All the software that we build is developed in compliance with ISO27001:2013 and is resistant to the OWASP top 10 attacks. We penetration test all our software as part of system testing as standard. We hold CISSP, CISM and CSSLP certifications as well as ISO9001 and 27001 as a demonstration of our commitment to security.
